Photosys User Guide

Photosys

Mhairi Gallacher, Programme Manager

Summary of Changes – December 2021

Please now use Microsoft Edge  when accessing Photosys

Health Boards and Location Names

Location names have been updated with the correct Health Board aligned to them. The table below highlights Health Boards which are impacted by this. Users and patients have been allocated to the correct health board area.

Previous Board Description on Photosys	Correct/Updated NHS Health Board	Hospital Names* Correctly Formatted
Argyll and Clyde	GGC	Inverclyde Royal Infirmary
		Royal Alexandra Hospital
		Vale of Leven
	Highland	Campbeltown Hospital
		Mid Argyll Community Hospital
		Lorn & the Islands Hospital
Highlands	Highland	Lawson Memorial Hospital
		Raigmore Hospital
	Western Isles	Western Isles Hospital
Shetland	Orkney	Dounby Surgery
	Shetland	Gilbert Bain Hospital

**Other Hospitals have had updates to names but will still be recognisable, e.g. "Dundee" is now "Ninewells"*

Recent changes are highlighted in red text throughout the document and include:

Removal of Health Board Restrictions

As a user you are now able to see your patient's full treatment history regardless of where they were previously treated in Scotland. If a patient is new to your health board area but was treated elsewhere in Scotland they will be located by the search function and you will be able to add a new course of treatment to their record.

Due to the removal of these restrictions, users should ensure that the "centre referred to" in the registration update page **MUST** be the same as the "location" in the encounters details page (when entering a new course of treatment). (See Page 13)

A health board dropdown has been added to the Registration and Update Pages.
Please ensure the correct Health Board has been chosen. (See Page 11)

To identify where treatments have taken place, a “Location” column has been added to the treatment summary sheet (See Page 12)

Changes to New Treatment Summary Pages (see page 12):

- Ability to Capture an **appropriate delay in treatment**. A new tick box has been added under 'finish date' called 'Appropriate delay in treatment' with free text underneath entitled 'reason for delay in treatment'.
- Painful Erythema. This has been amended to read “Painful Erythema (grade 3 or 4 only)”.
- “Face Shield” is now a mandatory field.
- “Topical Therapies” – now mandatory to add Yes or No. If Yes, there is a free text section to add details of topicals therapies used.
- **ALL** fields within a treatment record can now be amended if required.

Skin Cancer Review (pages 17-19)

The skin cancer review section has been updated to better identify if and when patients have been offered and attended skin review.

There is also a new area within Photosys to identify (tag) patients who should be recalled for skin review who may not currently be captured through the annual audit lists made available to centres. Clinicians should consider tagging patients thought “at risk”, for example prior ciclosporin, personal history of skin cancer.

There is also the function to highlight patients who have been identified for skin review who should no longer be recalled - either at their own or at their clinician’s request.

1. ACCESSING PHOTOSYS

A username and password is required to access the site. This can be requested by emailing NSS.photonet@nhs.scot.

The link to the system is available on Photonet website (www.photonet.scot.nhs.uk), Professionals tab, press the button on left hand side:  which will take you to Photosys page:

2. MAIN SCREEN

- Login by clicking '**Please login**' on the menu at the left hand side of the screen or by clicking on the '**Photosys**' icon.

- You will then be taken to a login screen, where you will be asked for your Name, Password and Group. Unless you work for National Services Scotland please select '**NHS Health Board**' as your group. Once you have entered the relevant information, click on '**submit**'.

Name:
Password:
Group:

Once you have entered Photosys, please do not use the Back/Forward buttons on your browser. Doing so may result in you being thrown out of the system!

3. WELCOME SCREEN

- You will be taken to the '**Photosys Welcome Screen**' where you are presented with two options: -
 - Patient Search
 - Search

- Select an option from the two hyperlinks or from the navigation menu at the left hand side of the screen. The Navigation Menu will be visible at all times and can be accessed to perform a variety of the tasks outlined throughout this guide.

4. PATIENT SEARCH

- When you choose the '**Patient Search**' option the following screen will be displayed. To navigate through the fields on the screen, simply click the mouse in the field you wish to enter the information, or alternatively you can use the **TAB** key on your keyboard.

The image shows the Patient Search form. On the left is the navigation menu with 'Pat. Search' selected. The form contains the following fields: CHI Number / Original Number, Surname, Forename, Date of Birth, Sex (dropdown), Start of Address, and Post Code. At the bottom, there is a 'Return Up To' field with '10' records, a 'Search Photonet' button, and a 'Clear' button.

- Enter search criteria in the boxes provided – you can search on each or a combination of the following categories – CHI Number/Original Number, Surname, Forename, Date of Birth, Sex, Start of Address, PostCode. **The CHI number should be used as the main search criteria.**
- Please note that if a patient is new to your health board area but were previously treated elsewhere in Scotland they will now be located by the search function and you will be able to add a new course of treatment to their record.

- If you make a mistake, click on '**Clear**' to clear search criteria and begin a new search, otherwise click on '**Search Photonet**' to begin searching patient records.

5. SEARCH RESULTS

- Photosys will perform a search within the Photonet Database for all patients registered **on the system across Scotland**. If your search shows that the patient is **not** registered on the system, you will be given the option of Registering a New Patient.

a. REGISTERING A NEW PATIENT

- To register a new patient, click on the link shown below.

The screenshot shows the Photosys search interface. At the top, it says 'NHS NSS' and 'Photosys'. On the left, there is a navigation menu for 'TAYSIDE' with options: Main, Admin, Pat. Search, Search Opts, Date Reports, General Reports, Functions, and Logout. The main search area contains the following fields: CHI Number / Original Number (00000000), Surname, Forename, Date of Birth, Sex (dropdown), Start of Address, Post Code, and Return Up To (10) records. There are 'Search Photonet' and 'Clear' buttons. Below the search area, it says 'PHOTO PATIENTS' and 'No records currently match your selection.' At the bottom, there is a text prompt: 'Please click [here](#) to register a new patient.' An arrow points from a box labeled 'New Patient Link' to the 'here' link.

PLEASE NOTE THAT PHOTOSYS HAS CHI LINKAGE AND THE REQUIREMENTS TO ADD A NEW PATIENT TO THE SYSTEM ARE NOTED BELOW:

- You will be taken to a screen similar to the one shown below, where you will be required to input details for the new patient. Certain fields will be mandatory and are as follows:- Surname, Forename, DOB, Gender, Valid CHI No (e.g. dd/mm/yy/****).

Register a new patient

DETAILS

STEP 2: Click on Submit

STEP 1

Enter the following mandatory fields:

CHI number

DOUBLE CHECK CHI DETAILS ARE CORRECT

DOB

Surname

Forename

Gender

Location

The patient's phone numbers, occupation, GP and skin type can also be entered if known.

Note: The Recall for Skin Review area does not need to be updated when registering a new patient unless there is a clinical reason for adding this.

Please Note: CHI LINKAGE: The remaining core demographic information will be updated through CHI linkage. This does not happen immediately and can take up to 5 minutes to be updated.

If you enter an invalid CHI Number, you will be presented with the following information box:

- If the details you have entered are incorrect, click on '**Reset**' to clear the form.
- When you have entered all the details click on '**Submit**'.
- Once you have submitted the information, you will be presented with the following Registration Form for the new patient. You should complete the form by selecting the relevant options from the drop down lists.

Please Note: The system has been updated to incorporate a link between *Diagnosis* and *Treatment*. This means that you **must** enter a Diagnosis, which will be shown when you later add a new treatment. If you do not enter a Diagnosis you will receive the following dialog box: -

Registration Form

Surname: YANKEE CHI number: 3010140029
Forename: NELLIE
Centre Referred To:

 6:

- If the details you have entered are incorrect, click on '**Reset**' to clear the form.
- When you have entered all the details click on '**Submit**'.

Please Note: CHI LINKAGE: Please check that the patient’s core demographic information has been correctly added by checking the patient record once all the course of treatment has been entered.

b. EXISTING PATIENTS

- If your search shows that the patient **is** registered on the system, the matching results will be displayed (similar to the screen below)

CHI Number / Original Number
 Surname Forename
 Date of Birth Sex
 Start of Address Post Code
 Return Up To records:

PHOTO PATIENTS	CHI No	SURNAME	FORENAME	DOB	DOD	SEX	ADDRESS	POSTCODE
	010101010	TEST	PERSON	12/12/1912	12/12/2012	M	10 PARK PLACE	DD60 90P

Hyperlinks

Date of Death

- The list of Matching Results contains details such as CHI Number, Surname, Forename, DOB, Address and Postcode. **Date of Death** is listed in the results line – this is a recent addition to Photosys.
- If the list of Matching Results contains the name of the patient you are looking for – click on the CHI number hyperlink to view more information (as shown below).
- If the list of Matching Results does **not** contain the name of the patient you are looking for try different search criteria or increasing the number of records returned.
- When you click on the CHI number hyperlink to continue, the following screen, showing the full details for the patient you have selected, will be displayed.

[Main](#) | [Pat. Search](#) | [Search](#) | [Functions](#) | [Logout](#)

You have chosen the following patient:

Continuing past this point will be logged.

CHI number: 3003490303

FORM 3 - PUVA/UVA1/UVB SUMMARY

- To print a copy of the Summary Sheet, click on the **'PDF'** button at the top of the screen.
- Remember you can return to previous screens by clicking on the relevant link on the Main Menu (as illustrated above).

7. ADDING NEW TREATMENTS

- From the **'Patient Options'** section within the main menu, you have the option of adding new treatments e.g.
 - New PUVA
 - New UVA1
 - New UVB
- To add a new treatment, click on one of the hyperlinks from the menu at the left hand side of the screen. For example to add a New UVB, click on the hyperlink and you will be presented with the following screen: -

Recent changes are highlighted in Red Text Below:

Ensure all details are correct. If the Referring Centre isn't correct, this can be updated in the Reg Update Tab.

New: If treatment was delayed, either at clinician or patient request, please add reasons in free text area.

Condition Treated – it is now **mandatory** to select the main condition being treated only

Record Grade 3 or 4 erythema only.

“Face Shield” is now a mandatory field and **should be selected as Yes** if used for more than half the course of treatment.

Topical Therapies – now **mandatory** to add Yes or No. If Yes, there is a free text section to add details of topical therapies used.

- Complete the form by filling in the relevant fields and if you make a mistake and wish to clear the form, simply click on **‘Reset’**.

Please Note: - The ‘Condition Treated’ fields are picked up from the Diagnosis that you enter on the Registration Form.

- If you are satisfied with the information entered, click on **‘Add PUVA Summary’**. The following screen will be shown and you should click **“ok”** to confirm your entry, otherwise click **“cancel”**.

- Follow the same procedure for adding New UVA1, New PUVA.
- **Please note:** if a patient has **had more than one area of the body** treated at the same time, for example, the PUVA whole-body and PUVA hands, then **only the whole-body** details should be entered.

We can add 'hands also' in the free text field after the outcome field in this treatment course. This will ensure it is highlighted in the Summary sheet.

Do not enter the details for the hands as another treatment course as this will result in a doubling up of the data.

a. ADD NEW TREATMENTS (SUMMARY SHEET)

- As well as adding new treatments from the main menu, you can add new treatments from the Summary Sheet by clicking on the blue hyperlink at the end of each summary. This will take you to the Add New Treatments screen as illustrated in Section 8 – Add New Treatments.

[Delete this record](#)

- Each of these records can be amended by clicking on the hyperlinks situated at the bottom of the screen.
- To return to any of the previous screens, click on the menu at the left hand side of the screen (as shown below).

- Once the **'Update this record'** hyperlink has been activated you will be taken to a screen similar to the one shown below where you can amend the details. If you wish to clear the form at any time, click on the **'Reset'** button and your new entries will be erased. Otherwise, amend the relevant fields within the form and click on the **'Update Details'** button.

The screenshot shows the 'Update Encounter Details' form. At the top, there are three tabs: PUYA (1), UVA1 (No UVA1 treatments), and UVB (1 2). The form fields include:

- Treatment area: WB ; Whole Body (except male genitalia)
- Treatment administered: UVB (TL-01)
- Treatment Frequency: 3x weekly
- Referring dermatologist: bilisland
- Start Date: 03/08/2003
- Finish Date: 06/10/2003
- MED: 60
- Total Dose (mJ/cm²):
- Narrow Band TL/01: 306
- Broad Band TL/12:
- Number of treatments: 12
- Result / Adverse Effects: 1. Cleared, 2., 3.
- Painful Erythema: No
- Consent Given: Yes
- Urgent Referral: No

Callouts show a box labeled 'Update Details' with an arrow pointing to the 'Update details' button, and another box labeled 'Reset' with an arrow pointing to the 'Reset' button.

b. DELETE RECORDS

- If you choose to delete the record and click on the **'Delete'** button, you will be presented with a confirmation screen similar to the one below.

The screenshot shows the 'Delete Confirmation' screen. At the top, there are three tabs: PUYA (1 2 3 4), UVA1 (1 2 3 4), and UVB (1 2 3 4 5). The form content is:

Are you sure that you want to delete this record : PUYA-3494

Callouts show a box labeled 'Delete' with an arrow pointing to the 'Delete Course' button, and another box labeled 'Cancel' with an arrow pointing to the 'Cancel' button.

- You will be asked if you are sure you want to delete the selected record. If yes, click on the **'Delete Course'** button, otherwise click the **'Cancel'** button and you will be returned to the previous screen.

9. SKIN CANCER REVIEW HISTORY

Please note the way skin review data is entered has been updated.

- To review the history for a patient, click on the **'Skin Cancer Review'** hyperlink on the menu at the left hand side of the screen and you will be taken to a screen similar to the one below.
